

MTC Technologies – Student Internship

MTC Technologies will be offering an internship opportunity to a qualified student (entering) junior or senior year at Mediapolis High School. Students applying for this internship should have interest or technical skill with wireless routers, computers, tablets, other electronic devices, video production, etc. This job will require both inside and outside work, and the availability to record Varsity Football, Volleyball, Basketball, & Wrestling events, both home & away. The position will have the ability to set flexible hours agreed upon by MTC and will have a competitive hourly wage.

Qualified students must have a clean driving record and have had their driver's license for a full 12 months. Please complete the internship application located below and provide MTC with a current high school transcript.

Interested students may also qualify for a generous Next Gen Scholarship sponsored by MTC, ICA & DMACC.
